

## **Directions for Scoring the Small Group Observation Form**

### **INDIRECT LANGUAGE STIMULATION: Distribution**

1. On the first blank space, enter the number of columns under the Indirect Language Stimulation section (Information Talk and Indirect Responses – there are 7 total columns) that have marks in them (how many out of seven).
2. Calculate the percentage for the Distribution by dividing the number of columns that have at least one mark in them by 7 and then multiply by 100.

### **INDIRECT LANGUAGE STIMULATION: Total Indirect Stimulation Observed**

1. On the blank space provided, enter the total number of marks that were recorded in all of the columns in the Indirect Language Stimulation section (Information Talk and Indirect Responses).

### **DIRECT INTERACTIONS: Directives**

1. On the first blank space, total the number of Appropriate Directives and Closed Ended Questions observed.
2. On the second blank space, enter the total number of marks that were made in the Directives section (Appropriate + Close Ended Questions + Inappropriate).
3. Calculate the percentage by dividing the number in the first space by the number in the second space and then multiply by 100.

### **DIRECT INTERACTIONS: Praise/Encouragement**

1. On the first blank space, enter the number of marks recorded in the Praise/Encouragement Appropriate column.
2. On the second blank, enter the total number of marks in the Praise/Encouragement section (Appropriate + Inappropriate).
3. Calculate the percentage by dividing the number in the first space by the number in the second space and then multiply by 100.

### **DIRECT INTERACTIONS: Corrective Feedback**

1. On the first blank space, enter the number of marks recorded in the Corrective Feedback Appropriate column.

2. On the second blank, enter the total number of marks in the Corrective Feedback section (Appropriate + Inappropriate).
3. Calculate the percentage by dividing the number in the first space by the number in the second space and then multiply by 100.

**DIRECT INTERACTIONS: Total Direct Interactions Observed**

1. On the blank space provided, enter the total number of appropriate marks that were made in the Direct Interactions section (Appropriate Directives + Close Ended Questions + Appropriate Praise/Encouragement + Appropriate Corrective Feedback).

**SUMMARY OF BEHAVIORS OBSERVED**

1. On the Summary of Behaviors Observed checklist, total the number of items that were marked “Yes.” Divide this number by 10 (or 10 minus any items that were marked as “not applicable”) and multiple by 100 to get a percentage.
